7. Power - Bi Dashboard

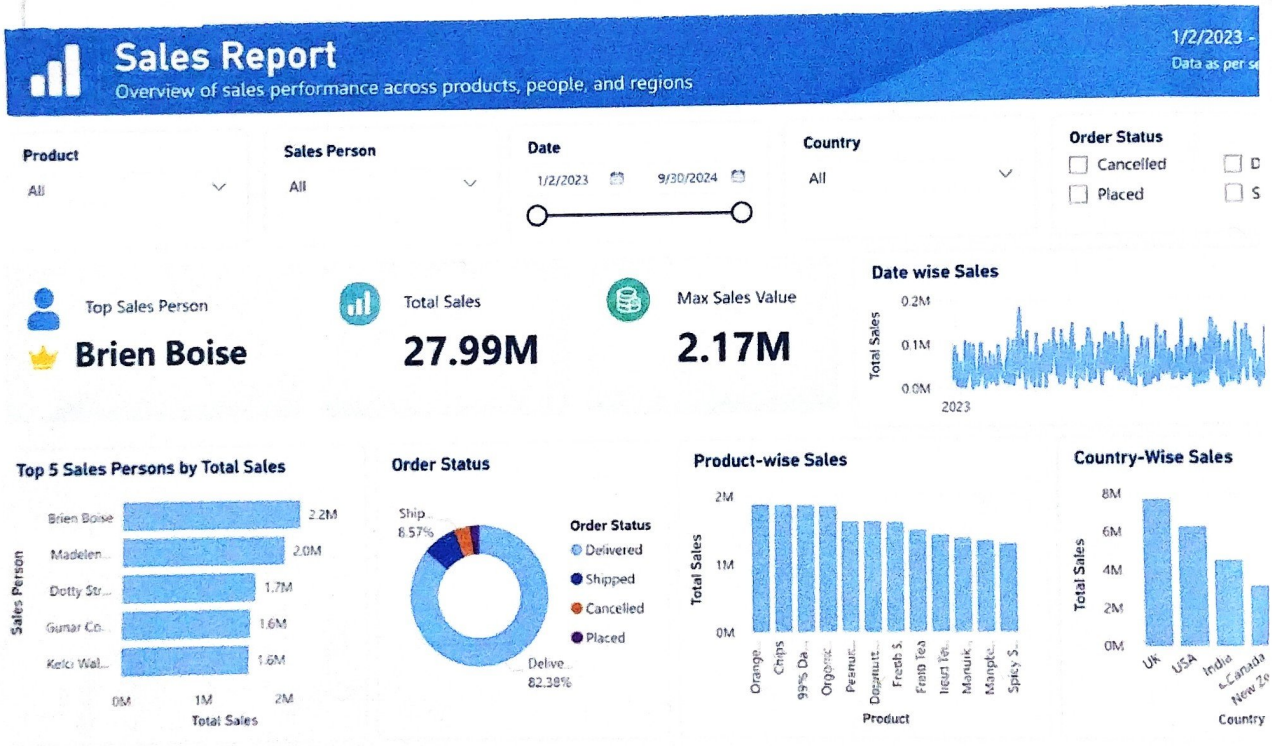

Aim:-

To create a power bi Dashboard that shows chocolate Sales by product, country, Salesperson & date.

Algorithm:-

* Load the data into power-bi / convert Pdf to csv.
* Clean the data & set data types.
* Create measures : Total Sales, Total Boxes, Avg Sale.
* Add visuals: Cards, line chart, bar charts, map, donut chart
* Add slides & Slicers for Country, product & Salesperson.
* Save the dashboard as .pbix.

Output:-

Result:-

The dashboard shows total Sales, the top products, countries, Salesperson and sales trend, and filters you explore data easily.
