8. Tableau Dashboard

Aim :-

To create a Tableau Dashboard that show chocolate sales by product, country, salesperson & date.

Algorithm :

* Load the data into Tableau (convert pdf to Excel (csv)
* Check data types and clean the data
* Create sheets :- Cards :- Total Sales, Total Boxes
  Line Chart :- Sales by Date
  Bar chart :- Sales by Product
  Map :- Sales by Country
  Pie Chart :- Order Status
* Combine the sheets into one dashboard
* Add filters for Country, product & Salesperson and apply them to all sheets.
* Save the file as .twbx.

Result :- The dashboard show total sales, top sales, country & salesperson etc.
